WHAT IS ARTAK

The **Augmented Reality Team Awareness Kit** (ARTAK) is a man-portable and rapidly self-deployable system that implements Virtual Reality (VR), Augmented Reality (AR) and Tablet devices to provide a comprehensive suite of tools for mission planning, situational awareness, and command and control.

ARTAK was built to support battle space, theater, and corps commanders, with a secondary objective to support higher-echelon commands. ARTAK gives individuals access to a global database of 3D maps and the ability to ingest their own map data to enable multi-domain situational awareness across the spectrum of conflict, from stability and support operations through full-spectrum operations.

ARTAK Turn-key "Kits" (page 9) contain all necessary equipment for the system to operate, including Software, User Devices, Network Devices, and off-line Servers, as well as training and support.

ARTAK Software Licenses (page 13) are available for users who prefer using their own devices.

ARTAK Add-ons (page 17) extend the system's capabilities to support unique mission requirements, such as the ARTAK Handheld Interior Mapping Kit.

TURN-KEY KITS

1 Patented System

US Patent 11,297,164 B2

2 ARTAK Software

Licenses for all devices

3 User-Devices

AR, VR, Tablets

4 Offline Server

Provides functionality without Internet

5 Network Node

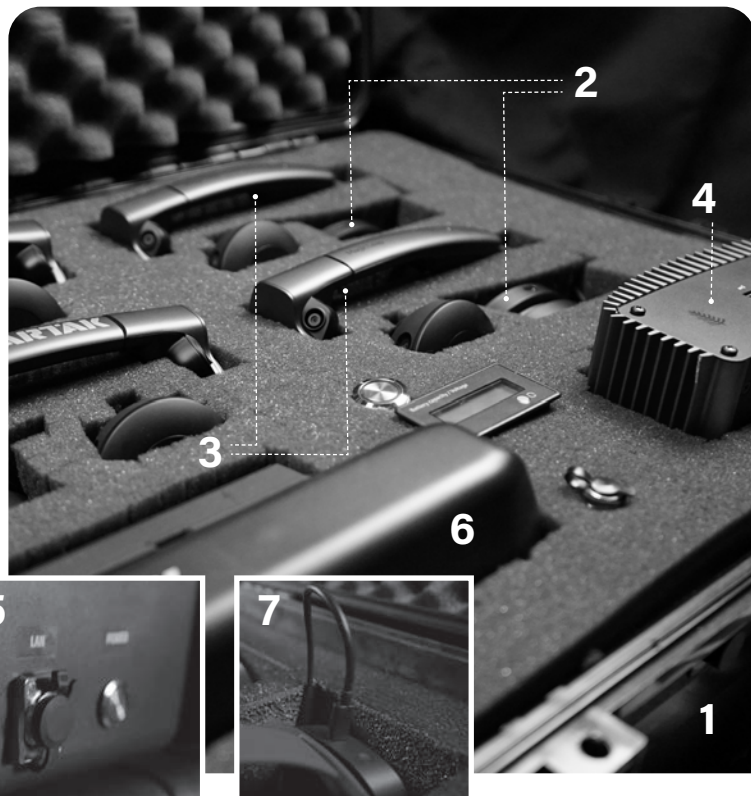

Provides WIFI/LAN & Internet

6 Man Portable

Deployable to the point-of-need

7 Internal Quick-Charging System

One high-power system for all devices

TURN-KEY KITS

THE ARTAK DIFFERENCE

ARTAK Kits are made to operate in most austere, contested, and dangerous places in the world.

The advanced features of ARTAK, including its global database of 3D maps and ability to ingest custom maps and live data, enable unparalleled situational awareness across the spectrum of conflict.

The ARTAK Capability represents a critical leap forward in enhancing mission planning, situational awareness, and command and control (C2) for the US ARMY, and we are proud to contribute to their operational readiness.

TURN-KEY KITS

\$21,989

UPT KIT

- 1 AR HMDs with ARTAK
- 1 Samsung S8+ Tablet with ARTAK

++

\$37,499

COMMAND TEAM KIT

- 2 AR HMDs with ARTAK
- 1 Samsung S8+ Tablet with ARTAK
- 1 WiFi/LTE Network Nodes

•

\$234,683

SQUAD KIT

- 8 AR HMDs with ARTAK
- 1 Samsung S8+ Tablet with ARTAK
- 1 WiFi/LTE Network Node
- 1 Edge Servers

12.6V IN

LAN

\$582,0300

BATTALION HQ KIT

18 AR HMD with ARTAK

- 4 Samsung S8+ Tablets with ARTAK
- 2 WiFi/LTE Network Nodes
- 2 Edge Servers
- 1 Map Maker Processing Kit

x

\$842,708

BRIGADE HQ KIT

40 AR HMDs with ARTAK

- 8 Samsung S8+ Tablets with ARTAK
- 2 WiFi/LTE Network Nodes
- 2 Edge Servers
- 1 Map Maker Processing Kit

SOFTWARE

\$3,400/year

ARTAK AR/VR

- 3 Year Subscription on Your device
- Runs on Hololens 2, Magic Leap 2, Quest 2 & Quest Pro
- Unlimited cloud storage
- Unlimited cloud map usage
- Unlimited multi-user

\$3,400/year

ARTAK ANDROID

- 3 Year Subscription on Your device
- Runs on most Android devices including phones and tablets
- Unlimited cloud storage
- Unlimited cloud map usage
- Unlimited multi-user

\$3,400/year

ARTAK WINDOWS

- 3 Year Subscription on Your device
- Runs on most PCs with at least Windows 10.
- Unlimited cloud storage
- Unlimited cloud map usage
- Unlimited multi-user

SOFTWARE

\$5,000/year

ARTAK ALL PLATFORMS

- 3 Year Subscription
- Includes license for AR, VR, Tablet & PC Devices
- Unlimited cloud storage
- Unlimited cloud map usage
- Unlimited multi-user

\$15,000/year

ARTAK SERVER

- 3 Year Subscription
- Operates without Internet
- Supports Unlimited* AR, VR, Tablet & PC Devices

*Limited only by hardware constraints of the device running the server application

\$114,688

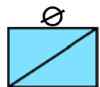

3D MAP PROCESSING KIT

- Laptop
- Map Maker Software

Dedicated in Honor and Memory of U.S. Air Force Master Sgt. John A. Chagnon
Medal of Honor recipient, KIA, March 4, 2002, in Takur Ghar, Afghanistan, in support of Operation Enduring Freedom

★ John, You Will Never Be Forgotten! ★

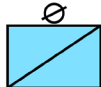

ADD-ONS

\$171,640

INTERIOR/SUB-T COLLECTION & PROCESSING KIT

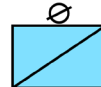

- 1 Laptop
- 1 Hand-held LiDAR Sensor
- 1 Map Maker Software

\$149,240

OUTDOOR COLLECTION & PROCESSING KIT

- 1 Laptop
- 2 Blue UAS Approved UAVs.
- 1 Map Maker Software

\$207,760

COMPLETE COLLECTION & PROCESSING KIT

- 1 Laptop
- 1 Hand-held LiDAR Sensor
- 2 Blue UAS Approved UAVs.
- 1 Map Maker Software
